### About Aurora Energy Research:

Established in 2013, Aurora Energy Research is a leading global provider of power market forecasting and analytics for critical investment and financing decisions. Headquartered in Oxford, we operate out of 16 offices worldwide, covering Europe, North and South America, Asia, and Australia. Our comprehensive services include market outlook packages for energy industry participants, advisory support, and innovative software solutions. We foster diversity with a team of 900 experts with backgrounds in energy, finance, and consulting, offering unparalleled expertise across power, renewables, storage, hydrogen, carbon, and fossil commodities. Our mission is to facilitate the global energy transition through widely trusted quantitative analysis and high-quality decision support.

*For media mentions, and articles, please use the below attributions which accurately represent Aurora Energy Research. Data referenced from Aurora Energy Research reports should always include attribution to Aurora Energy Research.*

**Preferred attribution for media mentions:** Aurora Energy Research, the global provider of power market forecasting and analytics for critical investment and financing decisions.

**Alternative attribution for media mentions:** Aurora Energy Research, the global provider of power analytics.
